- I. Claims 1-7, 25 and 26, drawn to a method to identify a putative cancer therapeutic comprising identifying a uniquely expressed or over expressed protein and determining if said protein is immunogenic, classified in class 435, subclass 4.
- II. Claims 8 – 24, drawn to a method to inducing an immune response against a target antigen comprising administering to a subject a protein which is uniquely expressed or over expressed in a target cell, whereby an immune response is mounted against the target cell, classified in class 424, subclass 277.1.

✓
Applicant's undersigned attorney hereby elects Group I drawn to a method to identify a putative cancer therapeutic comprising identifying a uniquely expressed or over expressed protein and determining if said protein is immunogenic.

No fee is deemed necessary in connection with the filing of this communication. However, if any fee is required, authorization is hereby given to charge the amount of any such fee to Deposit Account No. 07-1074.

Respectfully submitted,
